**Drawings**

1. The subject matter of this application admits of illustration by a drawing to facilitate understanding of the invention. Applicant is required to furnish a drawing under 37 CFR 1.81(c). No new matter may be introduced in the required drawing. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d).
2. No proper Drawings have been filed by applicant. Figures 1 through 3 from WO 2005/062103 filed June 19, 2006 with "Documents Submitted with 371 Applications" have been compared with applicants' claim 1. The claim cites elements in parentheses that are not associated with any one of Figures 1 through 3 from WO '103, but refer to several drawings in part, simultaneously. The examiner does not understand if the Figures from the 371 Applications are what applicant is intending to file and claim, or if new drawings/amended claims are intended but missing. The examiner asserts that a search and examination of the claims without the correct drawings filed will not result in the best and most expedient examination of the claims.
2. The subject matter of this application admits of illustration by a drawing to facilitate understanding of the invention. Applicant is required to furnish a drawing under 37 CFR 1.81. No new matter may be introduced in the required drawing. Applicant is given a TWO MONTH time period to submit a drawing in compliance with 37 CFR 1.81. Extensions of time may be obtained under the provisions of 37 CFR 1.136(a). Failure to timely submit a drawing will result in ABANDONMENT of the application.
